

DO YOU HAVE ANY TROUBLE IN LCD PANEL?

You can count on us, Toray research center, Inc.

FOREIGN PARTICLE IN LCD PANEL

Foreign particle is styrene acrylate resin with green pigment

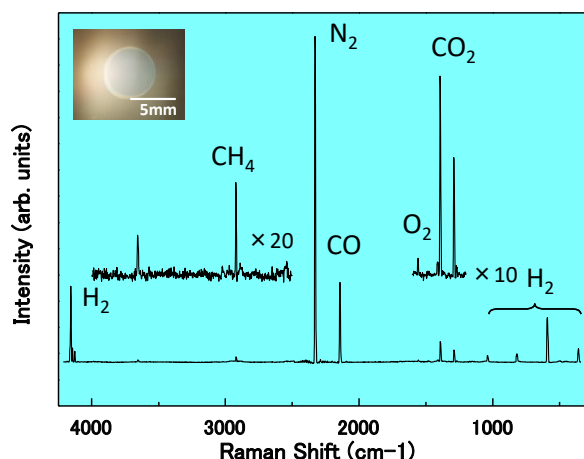

- ✓ Precise analysis data for trouble shooting
- ✓ Micro FTIR and Raman analysis is applicable from 1 μm foreign particle
- ✓ E mail data in 1-2 weeks

PRICE

110,000 YEN /SAMPLE

(Price will change depending on measurement points, measurement condition)

GAS ANALYSIS IN LCD PANEL

N₂ is process gas in LCD manufacturing, and CH₄, CO, CO₂, H₂ are decomposition of organic compounds in LCD panel

- ✓ Effective analysis data for process improvement
- ✓ No size limitation of panel size
- ✓ Raman analysis is available for Inorganic gas except rare gases, organic gas (C < 3)
- ✓ E mail data in 1-2 weeks

PRICE

200,000 YEN/ SAMPLE

(Price will change depending on measurement points, measurement condition)
